

EQUSIT Saddle Drafting Chair

The EQUSIT Saddle Drafting Chair from ErgoVerse features a heavily padded, tilting, bicycle style seat mounted to an elevated heavy duty steel frame. A gas spring provides a cushioned seat range from 27.75" to 36.6", sufficient to provide suitable seating heights for the majority of users. The wide back features 2" thick cushioning and has independent height and angle adjustments.

Two footrest options are available. Model 83015 features a large 22.8" diameter heavy steel footring that provides a convenient 360° fixed footrest a minimum of 9" above the floor. Model 83016 features a folding 120° footrest with angle adjustment. For safety, the steel footplate has an aggressively treaded surface. Both footrests can be secured at greater heights if necessary.

Both models have oversized 27" diameter chromed steel bases equipped with glides. The large base and glides ensure stability when mounting and dismounting from the saddle. If desired, the base on Model 83016 can be folded flat for storage.

Part #	Seat Material	Footrest	Folding	Color
ESDC-83015	Leatherette over 3" PU Foam	Fixed Footring	NO	Black
ESDC-F-83016	Leatherette over 3" PU Foam	Folding Foot Rest	YES	Black

EQUSIT Chairs come with a 5 year limited warranty against defects in materials and workmanship under normal use and service.
