

EZ-RYZE SOLO Foot Rest

The EZ-RYZE SOLO Foot Rest from ErgoVerse is unique in that it is specifically designed to offer support for a single foot. Like other EZ-RYZE models it offers virtually effortless adjustment while providing optimal support for the foot. It is an ideal solution where the user needs to keep one foot raised, such as a guitarist playing from a seated position or a worker who wishes to keep one foot raised while standing at a workbench. Unlike comparable foot rests, these robustly built units can be easily adjusted with a single foot. The release button is easily accessed with your heel, engaging the gas spring to gently raise or lower the platform to any point between 4.3" and 8.75" high. The non-locking platform tilts freely between 3° and 20°, encouraging flexing of the feet and ankles during use. The sturdy steel frame and base feature a wide stance for stability and support. The base is equipped with large rubber feet for secure positioning.

EZ-RYZE SOLO Foot Rest
ESFR-13207

The foot platform of the EZ-RYZE SOLO Foot Rest features raised curved ridges to help keep feet firmly in place. The large 7.9" wide by 12.6" deep sturdy platform is composed of ABS Plastic.

All EZ-RYZE Foot Rests come with a 5 year limited warranty against defects in materials and workmanship under normal use and service.
