

# MATAR Anti-Fatigue Mat

The MATAR Anti-Fatigue Mat by ErgoVerse provides users with the ideal balance of comfort and support for standing applications. The 0.75" thick mat features a proprietary commercial grade PUR Technology which can handle the heavy usage of the most demanding work environments without wearing out or losing resiliency. The MATAR Mat will not bottom out, fatigue, collapse or have the possibility of gel oozing out even after extended use. Unlike harder "hybrid use" sit stand mats, which are necessarily firmer to

accommodate a rolling chair, this mat provides a much higher degree of cushioning for the feet. The MATAR is stain and puncture resistant, has anti-microbial properties, and features eco-friendly construction employing a renewable plant based resource.

MATAR mats are manufactured in the USA and certified by the National Floor Safety Institute for their high traction no-slip bottom surface. All edges are bevelled at 18° allowing for a smooth transition from the floor to the mat. Models are available with a fluorescent yellow safety stripe on the long sides.

All Mats come with a 5 year limited warranty (2 years on the yellow stripe material), against defects in materials and workmanship under normal use and service.
