

SAIPH Foot Brace Rail

The SAIPH Foot Brace Rail is designed to provide foot support for Sit-Stand, Leaning and traditional Seated postures. The sturdy aluminum rail offers both 30° and 60° degree angle options (just reverse the rail to change the angle) and is equipped with rubber grips that keep it securely fixed in place once weight is brought to bear on the rail.

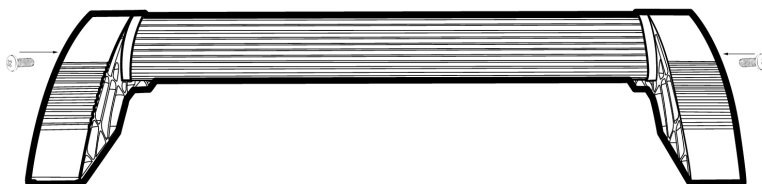

The SAIPH addresses different factors and concerns for each usage application.

Specifications: 22.75" W x 13.5" D x 4" H (57.8 W x 34.3 D x 10.2 H cm)

Assembly: Assembly of the SAIPH Foot Brace Rail takes about 2 minutes. Simply insert the rail into each end support and attach the supports using the included screws. You will need a Phillips or Slot Screwdriver in order to complete the assembly.
