

ANDROMEDA

Electric Workstation Base (3 Leg)

The ANDROMEDA Electric Workstation Base (3 Leg) by ErgoVerse features three electronically synchronized motors that provide very quiet lifting action for up to 330 lbs. Sturdy construction, smooth and quiet movement (23.5" - 49.5"), and programmable "touch-and-go" height adjustment combine to make the ANDROMEDA an option worth considering. The unique modular design of the ANDROMEDA 3-leg base is suited to accept 2-part L-shaped desk tops from 23.5" - 30" in depth. The convenient width adjustment (40" - 71") of the primary frame and the modular 3rd leg design means that this workstation base can be configured to support desk tops of almost any dimensions.

Combining the ANDROMEDA Electric Workstation Base 3-Leg with a DIADEM Waterfall Table Top and a DIADEM Return Table Top will create a complete corner workstation Sit-Stand Desk. The superior features of the ANDROMEDA and the high quality durable 3D-laminated finish of the DIADEM Table Tops will bring a refined look to any workspace.

Models:

- AWB-3B (black)
- AWB-3S (silver)
