

BOOTES Heavy Duty Foot Rest

The BOOTES Heavy Duty Foot Rest from Ergoverse provides users with a super-sized platform able to provide support for the largest of feet, supported by a robust steel frame that will provide years of reliable support.

The BOOTES Heavy Duty Footrest features a tilt adjustment from 12° - 31° and can be locked at any point within the range. A gravity-lock pin system with eleven 1.5" increment height settings is employed to securely position the foot platform from 3.5" - 17" above the floor and an aggressive non-slip textured surface ensure safety. Grip feet on the widely splayed legs keep the BOOTES Heavy Duty Foot Rest securely in place during use.

Part #	Platform Dimensions	Vertical Adjustment	Angle Adjustment
BHDFR	23.5" W x 13" D	3.5" - 17" (in 1.5" increments) Measured to middle of platform at 12°	12° to 31° Locking Tilt
